or click into the chat to answer the questions*

# Updates to Final Rule 42 CFR Part 2

**February 2024:** Final Rule updated 42 CFR Part 2 to improve care coordination while maintaining privacy protections

## Key Changes

***Single consent*** now covers *all future uses* and *disclosures* for treatment, payment, and healthcare operations (TPO).

HIPAA-covered entities and business associates can redisclose records following HIPAA guidelines

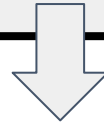

# Key Dates

---

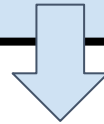

**September 30th, 2024**

Updated Notice of Privacy Practices, Executed CRISP DC NPP Attestation, Signed Qualified Service Organization Agreement (QSOA) Addendum

**October 1st, 2024**

Updated Consent Form Available in CRISP, Begin Reconsenting

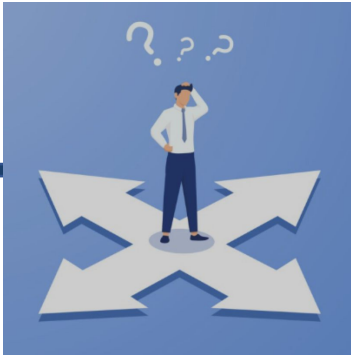

**January 6th, 2025**

Newly Consented Patient Data Shared

---

# Navigating the Consent Tool

## Key Features

- 🔑 Patients now only have one option of sharing SUD data
- 🔑 Expiration date can be set to “does not expire”, however can revoke consent at anytime
- 🔑 Managed Care Organizations can submit a beneficiary’s consent to share SUD data through the HIE and view SUD data in the HIE

# Identifying Shared SUD Data

*Please answer the poll questions as they appear on your screen or  
click into the chat to answer the questions*

The CRISP DC consent tool is available through the DC HIE for any organizations who have been trained and credentialed.

If your organization would like to implement the tool, please contact Abby Lutz ([abby.lutz@crisphealth.org](mailto:abby.lutz@crisphealth.org)) for a consent tool demonstration.
