

Navigate the Provider Directory in 3 Easy Steps

The CRISP DC Provider Directory is a free HIE tool with data from 650 sources, covering 6 million+ providers nationwide, including over 46,700 DC practitioners and 16,100 DC prescribers.

Search for up-to date information on:

- Practitioners
- Mental Health Providers
- Behavioral Health Providers
- Organizations
- Prescribers
- Substance Use Providers

Why Use the Provider Directory?

- Integrate in patient navigation workflows
- Automate patient communications
- Optimize IT infrastructure
- Support case management
- Public health capacity planning and education
- Relieve provider data maintenance

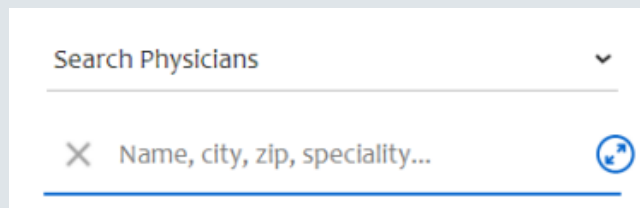

1.) Select the Directory tile on your dashboard in the CRISP DC Portal.

2.) Search for providers with the unstructured or structured search feature.

Examples:

- Brian Choi
- Choi Washington DC
- Choi 20001
- Choi Cardiology
- 1831003801 (NPI)

Advanced Search

Search Physicians

Search Nationwide

City
County
State
ZIP

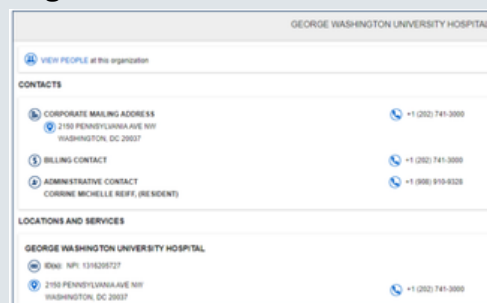

3.) Access data for providers and organizations!

Provider data includes:

- Provider Name
- Specialty
- Identifiers
- Locations
- Contact Information
- Affiliation
- Education
- Spoken languages

Organization data includes:

- Organization Name
- Identifiers
- Locations
- Affiliated Providers
- Administrative Contacts
- Services
- Telecom

Highlighted User Stories:

“Sometimes when I call an enrollee to offer my assistance with scheduling a doctor's appointment, the enrollee already knows what provider they would like to see. I often use CRISP to search for the provider and their information so I can call their office to schedule appointments. I also use the provider directory often to see if a provider is working at more than one medical facility.” -Outreach Department at Medstar
