

Use Case:

Patient Access Through Care Equality

Overview:

HSCSN would like to rely on the reporting and analytics offered by CRISP DC but is concerned that the data may not be completely accurate if patients on their patient panel have chosen to opt out of the HIE. Therefore, they are requesting the total number of patients on their panel who have opted out of the HIE.

Requesting Stakeholder:

HSCSN

Source(s) of Data:

CRISP DC Master Patient Index and CRISP DC Data Lake

Display Method and Location

Total number will be shared via email
